

IALA Risk Training Seminar/Panama Canal Visit to AGUA CLARA VISITOR CENTER EXPANDED PANAMA CANAL LOCKS

DEPARTURE TIME: 9:00 A.M. on Sunday 13 November

RETURN TIME: 12:30 P.M.

From/to Hard Rock Hotel Main Entrance (Ground Floor Level)

This visit is sponsored by Panama Maritime Authority for 40 participants

Located on the Atlantic side, near Colon City, the Agua Clara Visitor Center is waiting for all of you who want to enjoy a pleasant experience enriched with interesting facts, but especially by being part of the history of the route that unites the world.

The center offers a breathtaking panoramic view that contrasts two particular scenarios. On one side you will find the famous Gatun Lake, where cargo ships or other vessels transit every day, while on the other side, but from a different perspective, you will be amazed by the view of the expanded lock of the Panama Canal.

After the impressive viewpoint, you will be directed to the projection room where you can learn about the history and efforts of thousands of men and women that have marked the Canal's first century and, of course, plans in the near and distant future.

Places are limited, to register please send an email to gerardine.delanoye@iala-aism.org
