Pre-Conference Forum

May 26, 2018 | Room 116, Songdo Convensia

THE QUALITY OF MARITIME MANAGEMENT
Development of the Quality of Coastal States’ Maritime Management
OVERVIEW

• Date & Time: May 26, 2018 / 10:30-17:30
• Venue: Room 116, Songdo CovensiA
• Participants: 70 registrants from 30 countries
• Language: English

OBJECTIVE

The WWA focuses on the second Goal set out in IALA’s strategic vision 2014 – 2026 which is that:

All coastal states have contributed to an efficient global network of marine aids to navigation and services for the safety of navigation, through capacity building and the sharing of expertise.

The provision of such services must be based on the volume of traffic and degree of risk in the waters of each State. The higher these are the greater will be the requirement for mature aids to navigation management.

The theme of the Pre-Conference Forum is “The Quality of Maritime Management” with the subtheme of “Development of the Quality of Coastal States’ Maritime Management”. This topic is relevant not only for accredited training organisation officials, but is of great importance to policy makers and academic scholars interested in the topic to express their opinions in an interactive forum.

The event aims at providing participants with a deeper understanding of:

• the IALA accreditation scheme and international certification of AtoN managers
• the capacity building & training achievements of the World-Wide Academy
• a method to assess how well international obligations of Coastal states are being met

The event has two sessions. The first session focuses on accredited training, how AtoN managers can become internationally certified as “Level 1 AtoN Managers”, and how training organisations can be accredited to deliver IALA model courses. The first session will end with the World-Wide Academy capacity building & training achievements and lessons learnt so far.

The second session focuses on the International obligations (SOLAS etc.) of Coastal States and how well these obligations are being met around the world. The term Quality of Maritime Management is used to describe to what degree these obligations are fulfilled based on a list of identified requirements.

An opportunity will be provided to perform a self-assessment of your own country’s fulfilment of these obligations.
ATTENDANCE

The Forum is targeted at those who are:

- IALA Council members
- Representatives from organisations under the UN “Delivery as One” strategy
- Senior representatives from Competent Aids to Navigation Authorities
- Other interested parties

FORUM REGISTRATION

The Pre-Conference Forum will be free of charge. There is a limit of 70 participants. Registration is via the Pre-Conference Forum on-line registration system (www.iala2018korea.org). Lunch and coffee break will be provided.
