

ACADEMY LIST OF STATES IN NEED

In early 2017, the Academy reviewed the quality of maritime management; the volume of maritime traffic and the degree of risk to that traffic in all 152 independent Coastal States. The rationale behind this analysis is contained in the Academy's Master Plan.

"Coastal States in Need" are categorised into 3 priorities. "Priority 1" States have the greatest need of the Academy's services; "Priority 2" have a greater need and "Priority 3" have some need of its services. An in-house strategy has been developed to determine how the Academy's resources can best be allocated to reducing the number of target States over the next 5 years.

AFRICA			
Africa Anglophone	Priority 1	Priority 2	Priority 3
	Eritrea	Gambia	Mauritius
	Ghana	Liberia	
	Libya	Nigeria	Seychelles
