Circular letter to IALA Industrial Members

Subject: Invitation to celebrate World Aids to Navigation Day in Morocco – Tangier

Attachment: Event brochure

The Kingdom of Morocco, in partnership with the International Association of Marine Aids to Navigation and Lighthouse Authorities (IALA), is hosting the main event celebrating the World Marine Aids to Navigation Day in Tangier, on 4 and 5 July 2023, to which IALA's national, associate and industrial members are invited.

The day will include a conference with thematic panels and discussion between professionals and managers on aids to maritime navigation in a context of continuous evolution and adaptation, aiming at the improvement of Aids to Navigation and raising the level of Safety of Navigation and Environmental Protection worldwide. By engaging panel experts on national and international experts, members of IALA, this event will be sharing tools, techniques and successful experiences and will be exposing advanced technologies resulting from the work of IALA's technical committees. An exhibition of IALA's industrial members will enrich the programme by creating a space for dialogue between managers and suppliers.

In addition, it is an opportunity to visit Cap Spartel lighthouse, after its nomination as IALA Heritage Lighthouse of the year 2023, and to discover its cultural and heritage richness which deserves to be appreciated. The second day will be enriched by technical visits of the nearby port infrastructures and cultural visits in the heart of the city of Tangier overlooking both the Mediterranean Sea and the Atlantic Ocean. the brochure of the event is attached, that's also published on the IALA website.

As a final note, the Kingdom of Morocco invites the industrial members of IALA to participate actively in this international event by sponsoring the event and enriching the exhibition with their expertise as well as their contributions to the celebration of the World Aids to Navigation Day this year.

Your sincerely. 

Ministre de l'Équipement et de l'Eau

NIZAR BARAKA
