Date	Details	Approval
16 June 2017	1 st issue	Council session 64
September 2020	Edition 1.1 Editorial corrections.	

THE COUNCIL

RECALLING:

- 1 Article 8 of the IALA Constitution regarding the authority, duties and functions of the Council.
- 2 The work of IALA in encouraging the conservation of historical lighthouses and other marine aids to navigation of historical significance.

NOTING that The *IALA Lighthouse Conservation Manual* provides an easily-understood set of basic principles and checklists that will help an authority consider, design, plan and manage a number of complementary uses for their historical lighthouse estate.

RECOGNIZING

- 1 The public interest in many countries to maintain and conserve structures of national historical significance,
- 2 That despite differing significantly across a multitude of climates, topographies and national infrastructure types, historical lighthouses, if properly conserved and managed, offer their respective authorities a number of navigational, financial and reputational benefits and secure a legacy for the interest of all,
- 3 That conserving an historical lighthouse or related structure affords those authorities the freedom to explore a lighthouse structure's complementary or alternative uses as a platform for future aids to navigation, as an opportunity to exploit spare capacity commercially or as a platform for raising that authority's profile through education, awareness raising or community engagement,

CONSIDERING the proposals of the Engineering and Sustainability Committee,

ADOPTS Recommendation R1005 on Conserving the Built Heritage of Lighthouses and other Aids to Navigation,

INVITES Members and marine aids to navigation authorities worldwide to implement the provisions of the Recommendation,

RECOMMENDS that National Members and other marine aids to navigation authorities responsible for lighthouses and other aids to navigation structures which are of historical significance implement measures to promote conservation and maintenance of such lighthouses and structures as part of the global lighthouse heritage for the benefit, pleasure and education of future generations,

REQUESTS the Engineering and Sustainability Committee or such other committee as the Council may direct to keep the Recommendation under review and to propose amendments, as necessary.
